

II. Earn While You Learn (EWYL)

The concept of this programme is to develop entrepreneurship among the students undergoing various courses in the University. Aquaculture and allied subjects dominate the curriculum at KUFOS , a thorough hands-on exposure in the field will enable students to understand the basic concepts better .This will also help in turning them into capable professionals who will serve as job creators rather than job seekers. This programme will facilitate students to become self-sufficient, confident and efficient managers. Kerala University of Fisheries and Ocean Studies (KUFOS) is implementing this project by utilizing the infrastructure facilities available in the University.
